What is this product?

Type

Bel Canto Erodiade (the "Sub-Fund") is a sub-fund of BEL CANTO SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg S.A. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to seek a steady growth of its assets through a combination of investments: investments may be made in a wide variety of fixed income securities such as fixed and variable rates bonds or zero coupon bonds. Investments may also be made in common stocks, such as preferred stocks, and securities convertible into common stocks and warrants on shares.

Investment policy: The Sub-Fund may invest more than 10% of its net assets in UCITS and UCIs (including ETFs).

The attention of the investors is brought to the fact that a warrant may be highly volatile and its price could decline strongly in a short period of time and even be reduced to zero. These investments are not recommended for investors who cannot afford to lose.

The Sub-Fund may decide to invest in warrants on shares and these investments will only be done on an ancillary basis. The investments may be made in securities denominated in any currencies.

The Sub-Fund will not invest more than 20% of its net assets in cash and deposits at sight for ancillary liquidity purposes in normal market conditions. The Sub-Fund will give the investors the possibility to benefit from investing in worldwide securities. The Sub-Fund, in order to respond to specific needs for specific clients, adopted investment policies linked to risk criteria corresponding to the management style of these specific clients.

The Sub-Fund may invest in the above-mentioned securities in accordance with the investment policy targeting its long term objectives, that is to say, a steady growth of its assets through a diversified portfolio.

The Sub-Fund does not invest directly in asset-backed securities (ABS), mortgage-backed securities (MBS), distressed/defaulted securities and contingent convertible bonds. In case of a rating downgrade of any debt securities that the Sub-Fund may have invested in, the Sub-Fund could be exposed to distressed/defaulted securities.

In this case, the Management Company and the Investment Manager would make reasonable efforts so that this exposure will not exceed 10% of the Sub-Fund's net assets and that the distressed/defaulted securities are liquidated in the best interests of shareholders.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark

Net asset value calculation frequency: Bi-monthly, the 3rd Friday of each month and the last Business day of the month.

This is an accumulation share class in EUR.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depositary: Caceis Bank, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

Lower risk — Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€7,550	€7,840
	Average return each year	-24.47%	-7.80%
Unfavourable	What you might get back after costs	€9,080	€8,590
	Average return each year	-9.23%	-4.96%
Moderate	What you might get back after costs	€9,760	€9,340
	Average return each year	-2.42%	-2.24%
Favourable	What you might get back after costs	€11,340	€12,920
	Average return each year	13.35%	8.92%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2019 and 2022.

Moderate scenario: this type of scenario occurred for an investment between 2018 and 2021.

Favourable scenario: this type of scenario occurred for an investment between 2023 and 2026.

What happens if Santander Asset Management Luxembourg S.A. is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 per year is invested.

	If you exit after 1 year	**If you exit after 3 years**
Total costs	€111	€321
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.8% before costs and -1.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs
