

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

**Product:** BEL CANTO ERNANI, a sub-fund of BEL CANTO SICAV, share class A USD

**ISIN:** LU2038611252

**Website:** <https://www.santanderassetmanagement.lu>.

**Telephone:** (+352) 27 93 48 88

The CSSF, Commission de Surveillance du Secteur Financier ([www.CSSF.lu](http://www.CSSF.lu)), is responsible for supervising Santander Asset Management Luxembourg S.A in relation to this Key Information Document.

This PRIIP ("Packaged retail and insurance-based investment product") is authorised in Luxembourg.

BEL CANTO SICAV is authorised in Luxembourg and is supervised by the Luxembourg financial authority, CSSF.

**Document published:** 20/04/2026

## What is this product?

### Type

BEL CANTO ERNANI (the "Sub-Fund") is sub-fund of BEL CANTO SICAV, a UCITS incorporated in Luxembourg.

### Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

**Objective:** The investment objective of the Sub-Fund is to build a diversified portfolio of securities issued by companies or by governments or their local authorities established, listed or traded worldwide, providing exposure to a portfolio of assets comprising global equities and equity related securities, bonds, cash and alternative investments.

**Investment policy:** The Sub-Fund will invest directly, or indirectly through third party investment funds, in global fixed income securities and equities of public or private issuers quoted or traded on official stock exchanges or other regulated markets while seeking to control economic and monetary risks, but not excluding investments in other OECD and emerging countries.

The Sub-Fund will primarily seek to achieve its investment objective by investing its net assets in third party UCITS and UCIs (including ETFs) which may represent up to 100% of the Sub-Fund's net assets.

Under normal circumstances, the Sub-Fund's investments in equities will be 65% of the Sub-Fund's net assets, although the Sub-Fund's equity exposure may vary significantly from this level, depending on market conditions. The Sub-Fund's exposure to equities will represent a minimum of 20% and will not exceed 80% of the Sub-Fund's net assets.

The maximum exposure to fixed income instruments will be 70% with a minimum of 10% of the Sub-Fund's net assets. There are no restrictions in terms of duration or issuer's credit rating on these fixed income investments. However, the average rating of the fixed income securities is expected to be at least BBB-. In the cases where these instruments are not rated, the issuer rating will be used.

The Sub-Fund may invest up to 30% of its net assets in alternative investments always through UCITS.

The Sub-Fund can have indirect investments in asset-backed securities (ABS), mortgage-backed securities (MBS), distressed/defaulted securities and contingent convertible bonds but only via UCITS and ETFs.

The Sub-Fund's portfolio may be exposed to non-EUR currencies with no restrictions. The Sub-Fund may invest up to 10% of its net assets in exchange-traded commodities (ETCs). In case of adverse equity market conditions, the Sub-Fund might temporarily be invested in money market instruments up to 80% of its net assets, including listed money market instruments, investments in the foreign exchange market, callable or fixed deposits at credit institutions or other money market instruments provided the term to maturity of these investments does not exceed twelve months.

The Sub-Fund will not invest more than 20% of its net assets in cash and deposits at sight (such as cash held in current accounts) for ancillary liquidity purposes in normal market conditions. Under exceptionally unfavourable market conditions and on a temporary basis, this limit may be increased up to 80% of its net assets, if justified in the interest of the investors.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

**Net asset value calculation frequency:** Daily, any Luxembourg Business day.

This is an accumulation share class in USD.

### Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

**Depository:** Caceis Bank, Luxembourg Branch.

Copies of the Prospectus, the Key Information Document, the annual and semi-annual financial reports and the Articles of Incorporation of BEL CANTO SICAV can be obtained, free of charge, at the registered office of BEL CANTO SICAV (43, Avenue John F. Kennedy, L-1855 Luxembourg), of the Management Company or of the Depository Bank. Such documents are also available on [www.santanderassetmanagement.lu](http://www.santanderassetmanagement.lu).

## What are the risks and what could I get in return?

### Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Sub-Fund's capacity to pay you.

**Be aware of currency risk.** You may receive payments in a different currency, so the final return you may get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

| Minimum                            | There is no minimum guaranteed return. You could lose some or all of your investment. |                                 |                                  |
| Stress                             | What you might get back after costs   | USD 5 590                       | USD 6 140                        |
|                                    | Average return each year  | -44.10%                         | -15.01%                          |
| Unfavourable                       | What you might get back after costs   | USD 7 480                       | USD 9 110                        |
|                                    | Average return each year  | -25.20%                         | -3.06%                           |
| Moderate                           | What you might get back after costs   | USD 10 750                      | USD 11 450                       |
|                                    | Average return each year  | 7.50%                           | 4.62%                            |
| Favourable                         | What you might get back after costs   | USD 13 510                      | USD 15 030                       |
|                                    | Average return each year  | 35.10%                          | 14.55%                           |

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2021 and 2024.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

## What happens if Santander Asset Management Luxembourg is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10 000 per year is invested.

|                        | <b>If you exit after 1 year</b> | <b>If you exit after 3 years</b> |
|------------------------|---------------------------------|----------------------------------|
| Total costs            | USD 59                          | USD 194                          |
| Annual cost impact (*) | 0.6%                            | 0.6% each year                   |

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.2% before costs and 4.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of Costs

| <b>One-off costs upon entry or exit</b>                     |   | <b>If you exit after 1 year</b> |
|---|---|---------------------------------|
| Entry costs   | We do not charge an entry fee, but the person selling you the product may do so.  | USD 0                           |
| Exit costs  | We do not charge an exit fee for this Sub-Fund, but the person selling you the product may do so.   | USD 0                           |
| <b>Ongoing costs taken each year</b>                        |   |                                 |
| Management fees and other administrative or operating costs | 0.35% of the value of your investment per year. This percentage is based on actual costs over the last year.  | USD 35                          |
| Transaction costs   | 0.24% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | USD 24                          |
| <b>Incidental costs taken under specific conditions</b>     |   |                                 |
| Performance fees (and carried interest)                     | There is no performance fee for this Sub-Fund.  | USD 0                           |

---

## How long should I hold it and can I take money out early?

### **Recommended holding period: 3 years**

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 3 year/s. Subscription, conversion and repurchase applications must be notified before 1 p.m. (Luxembourg time) on the Business Day preceding the Valuation Date on which the application is to be effected. Applications notified after this deadline shall be dealt with on the following Valuation Date. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

---

## How can I complain?

If you have a complaint about the Fund, you can contact us by writing to [samluxcomplaints@santanderam.com](mailto:samluxcomplaints@santanderam.com) or to Santander Asset Management Luxembourg, S.A., 43, Avenue John F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg. You can find more details about how to complain in the Manager's complaint handling policy in the Document library section of the website at: [www.santanderassetmanagement.lu](http://www.santanderassetmanagement.lu). If you have a complaint about the person who advised you about this product, or who sold it to you, they will tell you where to complain.
