What is this product?

Type

EVSL Equity Managers (the "Sub-Fund") is a sub-fund of LEOPARD FUND, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg S.A. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to build a diversified portfolio of securities issued by companies or by governments or their local authorities established, listed or traded worldwide, providing exposure to a portfolio of assets comprising global equities, bonds, cash and money market investments as described below.

Investment policy: The Sub-Fund will primarily invest directly or indirectly through third party investment funds, in equities of public issuers quoted or traded on official stock exchanges in OECD and emerging countries.

The Sub-Fund will primarily seek to achieve its investment objective by investing its net assets in third party UCITS and UCIs (including ETFs) which may represent up to 100% of the Sub-Fund's net assets. The Sub-Fund's exposure to equities will be up to 100% of the Sub-Fund's net assets, although it may vary significantly from this level, depending on market conditions with a minimum equity exposure of 50% of the Sub-Fund's net assets.

The Sub-Fund will invest in emerging markets to 30% net assets.

The Sub-Fund's portfolio may be exposed to non-EUR currencies with no restrictions. To mitigate volatility due to the periodic fluctuations in foreign exchange markets, the Sub-Fund may engage in derivative transactions for the purpose of hedging its currency risk.

The Sub-Fund might also be invested in money market instruments up to 50% of its net assets, including listed money market instruments, callable or fixed deposits at credit institutions or other money market instruments provided the term to maturity of these investments does not exceed twelve months. The Sub Fund will not invest more than 20% of its net assets in cash and deposits at sight (such as cash held in current accounts) for ancillary liquidity purposes in normal market conditions.

Financial derivative instruments may be used for hedging and/or investment purpose as well as in the interest of the efficient management of the portfolio. The overall risk associated with the derivatives must not exceed the total net assets of the Sub-Fund.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in EUR.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depositary: Caceis Bank, Luxembourg Branch.

Copies of the Prospectus, the Key Information Document, the annual and semi-annual financial reports and the Management Regulations of LEOPARD FUND can be obtained, free of charge, at the registered office of the Management Company (43, Avenue John F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg) or of the Depositary Bank. Such documents are also available on www.santanderassetmanagement.lu.

What are the risks and what could I get in return?

Risk Indicator

Lower risk — Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the unit performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€5,260	€5,350
	Average return each year	-47.38%	-18.81%
Unfavourable	What you might get back after costs	€8,560	€9,750

	Average return each year	41.70%	19.92%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 2017 and 2020.

Moderate scenario: this type of scenario occurred for an investment using a suitable benchmark between 2021 and 2024.

Favourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 2018 and 2021.

What happens if Santander Asset Management Luxembourg S.A. is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 per year is invested.

	If you exit after 1 year	**If you exit after 3 years**
Total costs	€182	€663
Annual cost impact (*)	1.8%	1.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.9% before costs and 10.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs
