What is this product?

Type

SANTANDER GLOBAL VOLATILITY (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The Sub-Fund aims to generate medium to long-term growth while tolerating short-term fluctuations in value. To achieve its investment objective, the Sub-Fund employs strategies to exploit the volatility on the global equity, bond and interest rate, currency combined with low-risk liquidity management.

Investment policy: The Sub-Fund may invest or gain indirect exposure of 100% in debt instruments. Debt instruments in which the Sub-Fund may invest may include government bonds and corporate bonds including in-vestment grade and high yield bonds or any other fixed income security or instruments as money market instruments and have a minimum rating of BBB-/Baa3.

The Sub-Fund may also invest or gain indirect exposure in equities, certificates, as well as up to 10% of net assets in units of other UCITS and/or other UCIs.

The Sub-Fund mainly uses financial derivative instruments in order to achieve its investment objective or efficient portfolio management and hedging purposes.

In case the Sub-Fund uses total return swaps, the underlying of these total return swaps will consist of instruments in which the Sub-Fund may invest according to its investment policy. In particular, total return swaps may be used to gain exposure to equity or fixed income transferable securities and equity or fixed income related securities. The expected proportion of the assets of the Sub-Fund that can be subject to total return swaps is 40% in normal market conditions and the maximum proportion of the assets of the Sub-Fund that could be subject to them is 100%.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in EUR.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 5 years.

Depository: Caceis Bank, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product

will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		5 years	
Example Investment:		EUR 10 000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What happens if Santander Asset Management Luxembourg is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 per year is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 180	EUR 1 081
Annual cost impact (*)	1.8%	1.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6% before costs and 3.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
