What is this product?

Type

SALOMÉ ENHANCED YIELD (the "Sub-Fund") is sub-fund of a SICAV BEL CANTO SICAV, a UCITs incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to build a diversified portfolio of securities issued by companies or by governments or their local authorities established, listed or traded worldwide.

Investment policy: The Sub-Fund will invest, directly or indirectly through third party investment funds, in fixed income securities and equities of European and North American public or private issuers quoted or traded on European and or North American official stock exchanges or regulated markets while seeking to control economic and monetary risks, but not excluding investments in other OECD and emerging countries.

The Sub-Fund's exposure to equities will not exceed 10% of assets.

The maximum exposure to fixed income instruments will be 97% with a minimum of 25%. The Sub-Fund's fixed income instruments will be focused on a diversified portfolio of corporate international fixed income securities, rated at least Baa3/BBB- by the main credit rating agencies or reference market indexes. Furthermore, in case of adverse equity market conditions, the Sub Fund might temporarily be invested in cash and money market instruments up to 75% of its net assets.

Notwithstanding, the Sub-Fund may invest up to 30% of its net assets in securities whose ratings are lower than Baa3/BBB- or even without credit rating. In cases where these instruments are not rated, the issuer rating will be used.

The Sub-Fund may also invest more than 10% of its net assets in third party UCITS and UCIs.

The Sub-Fund may invest up to 30% of its assets in alternative investments.

Alternative investments are considered investment funds or asset classes that are not classified under traditional asset classes, for example absolute return funds (always UCITS), investment funds allowing indirect exposure to basic materials (always UCITS), convertible bonds, investment funds allowing indirect exposure to real estate (always UCITS), and similar eligible assets.

Participation in emerging markets will be limited to 50% of the portfolio.

The Sub-Fund's portfolio may be exposed up to 20% of its value to non-USD currencies. To mitigate volatility due to periodic fluctuations in foreign exchange markets, the Sub-Fund may engage in derivative transactions for the purpose of hedging its currency risk.

The Sub-Fund may invest up to 10% of its assets in exchange-traded commodities (ETCs), in eligible financial derivative instruments on commodity indices or on indices based on financial derivatives on commodities qualifying as eligible financial indices.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in USD.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depository: J.P. Morgan SE, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

 The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Fund's capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you may get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the market risks included in the risk indicator, other risks may affect the share performance:

Credit, Liquidity, Operational, Sustainability, Currency, Derivatives, Market, Interest Rate, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		\$10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	\$118	\$355
Annual cost impact (*)	1.2%	1.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.6% before costs and -0.6% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
