What is this product?

Type

SANTANDER EURO CAPITAL 95 (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of this Sub-Fund is to provide Shareholders with investment growth in the medium term, through a portfolio in a 5-year period that, under normal circumstances, will preserve as of the "Term Date of the Portfolio", 95% of the Net Asset Value as of the end of the ramp up period ("Initial Date of the Portfolio").

Additionally, the Sub-Fund will partially participate as of the Term Date of the Portfolio in the potential upside of the Euro Stoxx 50 (the "Index") as described below. This 95% level as of the Term Date of the Portfolio is an investment objective but is not guaranteed.

Investment policy: The Sub-Fund invests in public fixed income instruments in EUR, including agencies and supranational organizations, deposits, and money market instruments, with the aim of achieving, as of the Term Date of the Portfolio, approximately 95% of the Net Asset Value as of the Initial Date of the Portfolio.

To provide, as of the Term Date of the Portfolio, an additional participation of at least 50% of the positive performance of the Euro Stoxx 50, the Sub-Fund also invests in OTC options. The performance of the Index is based on its official closing levels on the Initial Date of the Portfolio and the Term Date of the Portfolio. If the performance of the Index is not positive, the Net Asset Value as of the Term Date of the Portfolio, under normal market circumstances, is expected to be approximately 95% of the Net Asset Value as of the Initial Date of the Portfolio.

Investors subscribing after the Initial Date of the Portfolio and/or redeeming before the Term Date of the Portfolio may experience returns that differ significantly from the investment objective and may suffer losses greater than 5%. The recommended investment period for the Sub-Fund is 5 years. The Sub-Fund invests in bonds with a final maturity date on or before the Term Date of the Portfolio, issued by European Governments, agencies or supranational organizations domiciled in the EU, with a minimum credit quality of BBB- as rated by major rating agencies.

In the event of a credit rating downgrade, the issuer's credit standing is assessed, and appropriate actions may be taken in the best interest of Shareholders. The Sub-Fund may be exposed to distressed securities; in such cases, the Management Company and the Investment Manager seek to limit its exposure to a maximum of 10% of the Sub-Fund's net assets.

This is an accumulation share class in EUR.

Before the Term Date of the Portfolio, the Board of Directors will decide on the future of the Sub-Fund (such options may include, but are not limited to, the liquidation of the Sub-Fund, a merger or a change of the investment policy) while continuing to manage the portfolio in order to maintain the performance, and Shareholders will be informed on the future of the Sub-Fund by means of a notice at least 30 days before the Term Date of the Portfolio.

As from the Term Date of the Portfolio, no redemption fees apply during a period of 30 days.

The Sub-Fund may invest up to 10% of its net assets in UCITS and/or other UCIs as defined under the heading "Units of undertakings for collective investment" of the "Investment Restrictions applicable to Eligible Assets" section of this Prospectus.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

Initial Date of the Portfolio: The Initial Date of the Portfolio of the Sub-Fund is 6 March 2026 ("Initial Date of the Portfolio").

Ramp-Up Period: The Ramp-Up Period starts on the launch of the Sub-Fund and ends on the Initial Date of the Portfolio. The Ramp-Up Period will not exceed six months.

Term Date of the Portfolio: The Sub-Fund is created for a limited term until a date which is expected to be 6 March 2031 (the "Term Date of the Portfolio").

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 5 years.

Depository: Caceis Bank, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

You are about to purchase a product that is not simple and may be difficult to understand.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product

will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

Recommended holding period:	5 years
Example Investment:	EUR 10 000
	If you exit after 5 years

Scenarios		
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	EUR 6 330
	Average return each year	-8.74%
Unfavourable	What you might get back after costs	EUR 8 290
	Average return each year	-3.68%
Moderate	What you might get back after costs	EUR 12 570
	Average return each year	4.68%
Favourable	What you might get back after costs	EUR 19 700
	Average return each year	14.52%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if Santander Asset Management Luxembourg S.A. is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depository, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depository is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 per year is invested.

	If you exit after 5 years
Total costs	EUR 556
Annual cost impact (*)	0.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.6% before costs and 4.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
