

Key Investor Information

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

SANTANDER FUTURE WEALTH
a sub-fund of SANTANDER SICAV

Class
RKP

ISIN
LU2267918170

The management company is
Santander Asset Management
Luxembourg S.A.

Objectives and Investment Policy

Objective: The investment objective of the Sub-Fund is to provide a consistent level of capital growth over a full market cycle. The Sub-Fund will invest directly or indirectly, through UCITS or UCIs, in securities perceived by that the management team as more interesting due to its innovative nature and its expectations of strong appreciation resulting from sustainable, secular changes in economic and social factors such as demographics, lifestyle, technology and the environment, among others.

Investment policy: This Sub-Fund will invest primarily through UCITS and UCIs in equity instruments. At least 75% of the total exposure will be invested (directly and indirectly) in equities, without predetermination by criteria of selection, issuers, markets, currency, capitalization and sector, being able to invest up to 100% of the total exposure in emerging markets, although under normal market circumstances it will be less than 50%.

The remainder 25% may be invested (directly and indirectly, through UCITS and UCIs) in fixed income securities like Government Bonds and corporate bonds which credit ratings are investment grade (rated above BBB- or Baa3 by major rating agencies or market benchmarks at the time of the investment).

The Sub-Fund will continuously invest at least 50% of its net assets directly or indirectly via funds in equity assets, excluding depository receipts and financial derivative instruments. In the case of indirect investments the Sub-Fund will take into account the effective equity ratio of the underlying fund. The Sub-Fund may invest up to 30% of its assets in alternative investments. Alternative investments are considered investment funds or asset classes that are not classified under traditional asset classes, for example absolute return funds (always UCITS), investment funds allowing indirect exposure to basic materials (ETFs/funds), investment funds allowing indirect exposure to real estate (ETFs/funds), and similar eligible assets.

The exposure to other currencies will be up to 50%.

The Sub-Fund may invest in financial derivative instruments, including futures and swaps, within the limits stated under the headline "Techniques and Instruments" for efficient portfolio management and to gain long or short

exposure to assets and markets, as well as for investment, hedging or efficient portfolio management purposes.

Net asset value calculation frequency: Daily, any full Business day.

A prior notice of one Dealing Day will be required for subscription, conversion and redemption applications lodged with the Registrar and Transfer Agent in Luxembourg before 16:00 Luxembourg time (the "cut off time") so that any application received before the cut off time of any Dealing Day D will be processed at the Net Asset Value applicable on Dealing Day D+1.

The Sub-Fund is actively managed in reference to the MSCI AC World Index (the "Benchmark"). The Sub-Fund does not track the Benchmark. The reason for referring to the Benchmark in this investment policy is to indicate that it is used for performance comparison purposes. However, the Investment Manager uses its discretion to select holdings based on an analysis of market conditions and an analysis of a company's prospects and valuations. As such, the Investment Manager will not hold all of the Benchmark constituents.

This is an accumulation share class in GBP.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

The Board of Directors intends to obtain for this sub-fund the certification from the United Kingdom's HM Revenue & Customs in order to be considered a reporting offshore fund (UK reporting status).

Risk and Reward Profile

The number indicated above is the fund's **Synthetic Risk Reward Indicator**, a way of illustrating the risk and reward profile of a fund by using historic performance data. Please be aware, this value can change over time and it may not be a reliable indication of the fund's future risk profile. In addition, the lowest category does not mean a risk-free investment.

A ranking of **6** means this fund typically has a high level of volatility, meaning that the fund's value could potentially fluctuate dramatically over a short period of time in either direction.

Investors should be aware of the following risks:

Derivatives Risk: The fund is permitted to use derivative instruments. The value of derivatives can be volatile and may result in gains or losses in excess of the amount required initially to establish a position.

Market Risk: Investments in the fund are subject to market fluctuations that could cause the value of a particular investment to change in a way that is detrimental to the fund's value.

Emerging Markets Risk: The fund is permitted to hold some exposure to Emerging Markets, which can at times carry a higher degree of risk compared to similar securities in more developed markets due to political and economic events.

Operational Risk: The risk of failures or delays in the system, processes and controls of the fund or those of its service providers that could lead to fund losses.

Sustainability risk: The Sub-Fund's investments may be subject to sustainability risks. Sustainability risks are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the Sub-Fund's investments.

Currency Risk: Investing in assets denominated in a currency other than that of the investor's own currency exposes the value of the investment to exchange rate fluctuations.

Charges

The fees are used to cover the operating costs for the Sub-Fund, including marketing and distribution costs. These fees reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.54%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown above are the maximum that may be charged. In some cases, you might pay less. You can obtain the actual charges directly from your financial adviser or distributor. The entry charges are deducted before your capital is invested.

The ongoing charge percentage indicated is based on the fees from the previous financial period, ended on 31 December 2022. This figure can vary from one financial period to another.

You can obtain more information about these charges, in the «fees and expenses» section of the prospectus.

Past performance

Past performance of Sub-Fund is not necessarily indicative of future performance.

The calculation of the past performance includes all fees and commissions which accrue on fund level.

This class was created in 2021.

The past performance has been calculated in GBP.
