What is this product?

Type

Santander GO Dynamic Bond (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg S.A. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to seek maximum long-term return and preservation of capital.

Investment policy: The Sub-Fund seeks to invest at least two-thirds of its assets in a diversified portfolio of fixed income instruments of varying maturities with an average portfolio duration ranging from negative 2 years to positive 6 years.

The Sub-Fund may invest in both investment-grade and high yield fixed income debt securities, subject to a maximum of 50% of its net assets in securities rated lower than Baa3. The Sub-Fund may invest up to 15% of its net assets in unrated fixed income debt securities.

The Sub-Fund may hold both non-USD denominated fixed income instruments and non-USD denominated currency positions. Non-USD denominated currency exposure is limited to 35% of assets.

The Sub-Fund may invest up to 50% of its net assets in asset-backed securities (ABS) and mortgage-backed securities (MBS).

The Sub-Fund may invest up to 10% of its net assets in preferred stock or bonds that are usually exchangeable for another type of security at a pre stated price. No more than 10% may be invested in equity securities.

The Sub-Fund may also invest up to 10% of its net assets in contingent convertible bonds, the Sub-Fund does not invest in distressed securities. However, in case of a rating downgrade of any debt securities that the Sub-Fund may have invested in, this exposure will not exceed 10% of the Sub-Fund's net assets.

The Sub-Fund may also invest in financial derivative instruments for efficient portfolio management and hedging purposes.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in EUR.
The Sub-Fund's reference currency is USD. This share class is denominated in EUR. Currency hedging may be used to reduce risk exposure associated with USD/EUR exchange rate fluctuations.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 4 years.

Depositary: Caceis Bank, Luxembourg Branch.

Copies of the Prospectus, the Key Information Document, the annual and semi-annual financial reports and the Articles of Incorporation of SANTANDER SICAV can be obtained, free of charge, at the registered office of SANTANDER SICAV (43, Avenue John F. Kennedy, L-1855 Luxembourg), of the Management Company or of the Depositary Bank. Such documents are also available on www.santanderassetmanagement.lu.

What are the risks and what could I get in return?

Risk Indicator

Lower risk — Higher risk

The risk indicator assumes you keep the product for 4 years.
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		4 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 2016 and 2020.

What happens if Santander Asset Management Luxembourg S.A. is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 per year is invested.

	If you exit after 1 year	**If you exit after 4 years**
Total costs	€94	€371
Annual cost impact (*)	0.9%	0.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.6% before costs and -0.4% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
