

Key Investor Information

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

Santander GO Global Equity
a sub-fund of SANTANDER SICAV

Class
RKP

ISIN
LU2013631366

The management company is
Santander Asset Management
Luxembourg S.A.

Objectives and Investment Policy

Objective: The investment objective of this Sub-Fund is to invest mainly in equities of companies operating in developed countries all over the world.

Investment policy: This Sub-Fund is an all cap fund, which may invest in large cap companies, as well as, small/mid cap companies. The Sub-Fund will invest at least two-thirds of its net assets in equities of companies that mainly operate in mature economies (developed countries). The Sub-Fund may also invest in American Depository Receipts (ADRs) and Global Depository Receipts (GDRs). The Sub-Fund may invest up to 20% of its net assets in emerging market countries as defined by MSCI and that are included in the MSCI Emerging Markets Index.

During the investment process, and after applying the fundamental criteria listed above, the Sub-Fund will apply an ESG approach, seeking to access the impact of environmental, social and governance factors on the cash flows of the companies in which it may invest.

The Sub-Fund will continuously invest at least 51% of its net assets directly or indirectly via funds in equity assets, excluding depository receipts and financial derivative instruments. In the case of indirect investments the Sub-Fund will take into account the effective equity ratio of the underlying fund.

The Sub-Fund may invest up to 10% of its assets in UCITS and other UCIs as defined under the heading "Units of undertakings for collective investment" in the investment restrictions section.

In order to achieve its investment objective, this Sub-Fund will mainly invest its assets in equities although depending on the opportunities of the markets it could invest as well in convertible bonds or derivative instruments such as options, swaps, futures and forwards within the limits stated in the Prospectus to achieve the exposure to equity markets as well as for hedging purposes. These financial derivative instruments may be traded on either a regulated market as mentioned in the Sub-Fund's Prospectus and entered into with highly rated financial institutions specialising in this type of transactions and participating actively in the relevant market. In this case this Sub-Fund may hold money market instruments, bonds or cash in order to finance the margin calls.

The Sub-Fund is actively managed in reference to the MSCI World Net Total Return USD Index (the "Benchmark"). The Sub-Fund does not track the Benchmark. The reason for referring to the Benchmark in this investment policy is to indicate that it is used for performance comparison purposes.

Furthermore, in case of adverse equity market conditions, this Sub-Fund may temporarily be invested up to 49% of its net assets in cash and money market instruments in order to protect investors' interests. The Sub-Fund does not use a specific currency strategy but may use currency instruments for hedging and efficient portfolio management.

SFDR Classification: The Sub-Fund promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector ("SFDR"). The Sub-Fund strives for economic results, while at the same time taking into account environmental, social and governance characteristics.

Net asset value calculation frequency: Daily, any full Business day.

Subscription, conversion and redemption applications lodged with the Registrar and Transfer Agent in Luxembourg on any Dealing Day (whereas a "Dealing Day" is any full Business Day preceding a Valuation Day) before 16:00 Luxembourg time (the "cut off time"), will be processed on that Dealing Day, using the net asset value per Share determined on the next Valuation Day for the relevant Class.

This is an accumulation share class in GBP.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

The Board of Directors intends to obtain for this sub-fund the certification from the United Kingdom's HM Revenue & Customs in order to be considered a reporting offshore fund (UK reporting status).

Risk and Reward Profile

The number indicated above is the fund's **Synthetic Risk Reward Indicator**, a way of illustrating the risk and reward profile of a fund by using historic performance data. Please be aware, this value can change over time and it may not be a reliable indication of the fund's future risk profile. In addition, the lowest category does not mean a risk-free investment.

A ranking of 5 means this fund typically has a medium to high level of volatility, meaning there is a degree of uncertainty over the size of changes in the fund's value over time. This could result in the value of the fund changing dramatically over a short period of time in either direction.

Investors should be aware of the following risks:

Derivatives Risk: The fund is permitted to use derivative instruments. The value of derivatives can be volatile and may result in gains or losses in excess of the amount required initially to establish a position.

Market Risk: Investments in the fund are subject to market fluctuations that could cause the value of a particular investment to change in a way that is detrimental to the fund's value.

Operational Risk: The risk of failures or delays in the system, processes and controls of the fund or those of its service providers that could lead to fund losses.

Sustainability risk: The Sub-Fund's investments may be subject to sustainability risks. Sustainability risks are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the Sub-Fund's investments.

Currency Risk: Investing in assets denominated in a currency other than that of the investor's own currency exposes the value of the investment to exchange rate fluctuations.

Charges

The fees are used to cover the operating costs for the Sub-Fund, including marketing and distribution costs. These fees reduce the potential growth of the investment.
