What is this product?

Type

SANTANDER GO GLOBAL HIGH YIELD BOND (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to seek maximum long-term return by investing in a global portfolio of fixed income securities.

Investment policy: The Sub-Fund invests at least two-thirds of its net assets in fixed and floating rate, senior and subordinated debt obligations of companies rated below investment grade (rated below BBB- or Baa3 by major rating agencies or market benchmarks at the time of the investment). The Sub-Fund may also invest up to 5% of its net assets in distressed debt securities. At least 40% of the Sub-Fund's net assets are invested in securities issued by entities domiciled in the United States. The Sub-Fund may invest up to 25% of its net assets in subordinated debt. The average rating of the fixed income securities in which the Sub-Fund invests is not lower than B-.

The Sub-Fund may also invest (i) up to 20% of its net assets in securities issued by entities domiciled in Latin America (Mexico, Central America, South America and the islands of the Caribbean, including Puerto Rico); and (ii) up to 20% of its net assets in securities issued by entities domiciled in Asia (the Asian continent and the surrounding Pacific islands including Australia and New Zealand). The Sub-Fund may invest up to 10% of its net assets in equity securities and up to 10% of its net asset in convertible bonds or bonds with warrants attached.

The Sub-Fund may not invest more than 20% of its net assets in CoCos.

The Sub-Fund may invest up to 10% of its assets in UCITS and other UCIs as defined in the Prospectus.

The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and deposits at sight for liquidity purposes in normal market conditions. The Sub-Fund may also invest in financial derivative instruments for efficient portfolio management and for hedging purposes.

The Sub-Fund is actively managed in reference to the ICE BofA Merrill Lynch Global High Yield Constrained Index, fully hedged against USD, (the "Benchmark"). The Sub-Fund does not track the Benchmark. The reason for referring to the Benchmark in this investment policy is to indicate that it is used for performance comparison purposes.

However, the Investment Manager uses its discretion to select holdings based on an analysis of market conditions and an analysis of a company's prospects and valuations. As such, the Investment Manager will not hold all of the Benchmark constituents.

The expected proportion of the Sub-Fund's assets that can be subject to total return swaps is 25%. The maximum proportion of the Sub-Fund's assets that can be subject to total return swaps is 50%.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in EUR.

The Sub-Fund's reference currency is USD. This share class is denominated in EUR. Currency hedging may be used to reduce risk exposure associated with USD/EUR exchange rate fluctuations.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depository: Caceis Bank, Luxembourg Branch.

Copies of the Prospectus, the Key Information Document, the annual and semi-annual financial reports and the Articles of Incorporation of SANTANDER SICAV can be obtained, free of charge, at the registered office of SANTANDER SICAV (43, Avenue John F. Kennedy, L-1855 Luxembourg), of the Management Company or of the Depository Bank. Such documents are also available on www.santanderassetmanagement.lu.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product

will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		EUR 10 000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 7 980	EUR 8 070
	Average return each year	-20.20%	-6.90%
Unfavourable	What you might get back after costs	EUR 8 150	EUR 8 860
	Average return each year	-18.50%	-3.95%

	Average return each year	22.00%	9.00%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2019 and 2022.

Moderate scenario: This type of scenario occurred for an investment using a suitable benchmark between 2017 and 2020.

Favourable scenario: This type of scenario occurred for an investment using a suitable benchmark between 2022 and 2025.

What happens if Santander Asset Management Luxembourg is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 109	EUR 341
Annual cost impact (*)	1.1%	1.1% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.8% before costs and 1.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This product has no required minimum holding period but is designed for long-term investment; you should have an investment horizon of at least 3 year/s. Subscription, conversion and redemption applications lodged with the Registrar and Transfer Agent in Luxembourg on any Dealing Day (whereas a "Dealing Day" is any full Business Day preceding a Valuation Day) before 16:00 Luxembourg time (the "cut off time"), will be processed on that Dealing Day, using the net asset value per Share determined on the next Valuation Day for the relevant Class.

Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

If you have a complaint about the Fund, you can contact us by writing to samluxcomplaints@santanderam.com or to Santander Asset Management Luxembourg, S.A., 43, Avenue John F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg. You can find more details about how to complain in the Manager's complaint handling policy in the Document library section of the website at: www.santanderassetmanagement.lu. If you have a complaint about the person who advised you about this product, or who sold it to you, they will tell you where to complain.
