What is this product?

Type

SANTANDER GO NORTH AMERICAN EQUITY OPPORTUNITIES (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg S.A. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to invest its assets in a diversified portfolio of securities issued by US and Canadian companies seeking long term capital appreciation.The Sub-Fund will be actively managed with the objective of outperforming the S&P 500® Index (the "Benchmark") net of fees over a three to five year period. This is a target only and not a guaranteed outcome. The Sub-Fund will typically invest in the equities of well established, large-capitalization companies using a bottom-up stock selection process.

Investment policy: The Sub-Fund will invest mainly in equities (including American Depository Receipts (ADRs) and Global Depository Receipts (GDRs)), although depending on the opportunities in the markets it can also invest in exchange traded and over-the-counter options, futures and other financial derivative instruments. The Investment Manager will favour well-known companies with sustainable competitive advantages with the ability to redeploy capital at high rates of return. The Sub-Fund will also invest in companies that are considered underappreciated by the market. On an ancillary basis, up to 10% of its assets may be invested in debt securities convertible into common shares, preference shares, warrants on securities and other equity-linked securities. The Sub-Fund may invest up to 10% of its net assets in securities issued by non-US and non-Canadian companies. The Sub-Fund may invest part of its assets in cash and money market instruments to facilitate transactions and flows. The Sub-Fund may invest up to 10% of its net assets in exchange traded funds qualifying as UCITS. The Sub-Fund will continuously invest at least 51% of its net assets directly or indirectly via UCITS and/or other UCIs in equity assets, excluding depository receipts and financial derivative instruments. The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and deposits at sight (such as cash held in current accounts) for ancillary liquidity purposes in normal market conditions.The Sub-Fund may invest in financial derivative instruments, including futures and swaps.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in USD.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depositary: Caceis Bank, Luxembourg Branch.

What are the risks and what could I get in return?

Risk Indicator

Lower risk — Higher risk

The risk indicator assumes you keep the product for 3 years.
The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very likely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		$10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	$1,180	$800
	Average return each year	-88.19%	-56.89%
Unfavourable	What you might get back after costs	$4,130	$5,770

Favourable	What you might get back after costs	$18,730	$21,710
	Average return each year	87.27%	29.48%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: this type of scenario occurred for an investment between 2021 and 2024.

Moderate scenario: this type of scenario occurred for an investment between 2016 and 2019.

Favourable scenario: this type of scenario occurred for an investment between 2022 and 2025.

What happens if Santander Asset Management Luxembourg S.A. is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10,000 per year is invested.

	If you exit after 1 year	**If you exit after 3 years**
Total costs	$70	$262
Annual cost impact (*)	0.7%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.0% before costs and 11.3% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
