What is this product?

Type

SANTANDER INNOVATION (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg S.A. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The objective of this Sub-Fund is to provide a consistent level of capital growth over a full market cycle. The Sub-Fund will invest directly or indirectly, through UCITS or UCIs, in securities perceived by the Investment Manager as more interesting due to their innovative nature and their expectations of strong appreciation resulting from sustainable, secular changes in economic and social factors such as demographics, lifestyle, technology and the environment, among others.

Investment policy: The Sub-Fund may invest up to 10% of its net assets in UCITS and/or other UCIs as defined under the heading "Units of undertakings for collective investment" of the "Investment Restrictions applicable to Eligible Assets" section of the Prospectus.

The Sub-Fund will invest at least 75% of its net assets (directly and indirectly) in equity securities, without predetermination by criteria of selection, issuers, markets, currency, capitalization and sector, being able to invest up to 100% of its net assets in emerging markets, although under normal market circumstances it will be less than 50%. Investments in emerging markets may include indirect investments in China, limited to 10% of the fund net assets, via UCITS and UCIs (including ETFs).

The remainder 25% may be invested (directly and indirectly, through UCITS and UCIs) in fixed income securities such as government bonds and corporate bonds with investment grade credit rating (rated above BBB- or Baa3 by major rating agencies or market benchmarks at the time of the investment).

The Sub-Fund will continuously invest more than 51% of its net assets directly or indirectly via UCITS and UCIs in equity assets, excluding depository receipts and financial derivative instruments. In the case of indirect investments the Sub Fund will take into account the effective equity ratio of the underlying fund.

The Sub-Fund may invest up to 25% of its assets in Alternative Investments. Alternative Investments are considered investment funds or

asset classes that are not classified under traditional asset classes, for example absolute return funds (always UCITS), investment funds allowing indirect exposure to basic materials (ETFs/funds), investment funds allowing indirect exposure to real estate (ETFs/funds), and similar eligible assets.

The exposure to other currencies will be up to 50%. The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets, being cash and deposits at sight (such as cash held in current accounts) for ancillary liquidity purposes in normal market conditions.

The Sub-Fund may invest in financial derivative instruments, including futures and swaps, for efficient portfolio management and to gain long or short exposure to assets and markets, as well as for investment, hedging or efficient portfolio management purposes.

The Sub-Fund is actively managed in reference to the MSCI ACWI IMI Innovation Select Screened 200 Index (the "Benchmark"). The Sub-Fund does not track the Benchmark. The Benchmark is used for performance comparison purposes and the Investment Manager uses its discretion to select holdings. As such, the Investment Manager may deviate from the Benchmark asset allocation and invest in other allowed assets that might not be part of it.

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is an accumulation share class in EUR.

The Sub-Fund's reference currency is USD. This share class is denominated in EUR. Currency hedging may be used to reduce risk exposure associated with USD/EUR exchange rate fluctuations.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depository: Caceis Bank, Luxembourg Branch.

What happens if Santander Asset Management Luxembourg S.A. is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	€289	€1,043
Annual cost impact (*)	2.8%	2.8% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.7% before costs and 9.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
