Investment policy

The fund invests mainly in USD LatAm corporate debt across the rating spectrum. A bottom-up investment process screens for companies with improving credit metrics, while avoiding issuers that are vulnerable to default and impairments. Local and global teams of Analysts and Portfolio Managers offer close proximity to companies and a global view on trends that shape the corporate landscape. Up to 100% may be invested below investment grade bonds. Derivatives can be used for risk management or investment purposes.
