Objective: The objective of this Sub-Fund is to provide a consistent level of income and capital growth over a full market cycle from a portfolio invested, in a diversified range of fixed interest instruments and equities, directly or indirectly, through UCITS or eligible UCIs.

Investment policy: The Sub-Fund's exposure to equities will not exceed 70% of its net assets.

This Sub-Fund may invest up to 100% of its net assets in eligible fixed interest instruments. The exposure to fixed income securities will be achieved through government bonds and corporate bonds including investment grade and high yield bonds or any other fixed income security or instrument the Investment Manager deems suitable for the Sub-Fund such as, but not limited to, money market instruments, convertible bonds and inflation-linked fixed income securities.

The Sub-Fund may invest up to 25% of its net assets in securities rated lower than Baa3/BBB- by major credit rating agencies at the time of the purchase. The Sub-Fund will not invest in unrated securities nor in distressed securities. The Sub-Fund may invest up to 15% of its assets in Alternative Investments. This Sub-Fund may invest in UCITS and eligible UCIs. The target UCITS and UCIs.

The Sub-Fund may invest up to 10% of its net assets in (ETCs).

The total exposure to emerging markets will not exceed 25% of the Sub-Fund's total net assets.

The Sub-Fund will invest mainly in Euro denominated assets, notwithstanding that a maximum of 30% of total net assets may be invested in assets denominated in other OECD country currencies. The Sub-Fund may also invest in financial derivative instruments including swaps, forwards, futures, options and total return swaps. The expected proportion of the assets of the Sub-Fund that can be subject to total return swaps is 50% in normal market conditions and the maximum proportion of the assets of the Sub-Fund that could be subject to them is 95%. The Sub-Fund will not invest more than 20% of its net assets in ancillary liquid assets.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

SFDR Classification: The Sub-Fund promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector ("SFDR").

Net asset value calculation frequency: Daily, any Luxembourg Business day.

This is a EUR distribution share class. Unless specifically decided by the Board of Directors, dividends will be paid to shareholders at least on an annual basis.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product

will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		EUR 10 000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.

Favourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 2018 and 2021.

What happens if Santander Asset Management Luxembourg is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 218	EUR 670
Annual cost impact (*)	2.2%	2.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.3% before costs and 0.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
