## What is this product?

### Type

SANTANDER TOTAL RETURN (the "Sub-Fund") is a sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

### Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

**Objective:** The objective of this Sub-Fund is to maximize total investment return, consisting of a combination of income and capital appreciation over a full market cycle with a maximum expected annualized volatility in a 5 years period of 15%.

**Investment policy:** The Sub-Fund is a multi-asset, flexible, unconstrained fund that may invest up to 100% of its total exposure directly or indirectly through UCITS including ETFs and other UCIs, in global equities, commodities, sovereign and corporate bonds including liquid money market instruments (listed or unlisted) and/or deposits without predetermination of countries, sectors, and capitalization, currency, issuers and markets (including emerging markets), duration or rating.

The Sub-Fund will not invest directly in ABS, MBS, distressed securities, CoCos, and fixed income and equity instruments from Russia and China but might get indirect exposure.

The Sub-Fund takes a systematic approach combined with traditional and alternative management techniques complemented by the Investment Manager discretionary views.

The Sub-Fund invests in a diversified universe of assets and strategies and uses systematic analysis for asset allocation based on assets recent volatility, correlation and returns metrics, and allocates weights depending on their contribution to risk and the volatility target of the product.

The Sub-Fund systematic approach is complemented with alternative management techniques. These techniques are characterized by the fact that the returns obtained are not linked to the direction of the markets, and returns can be obtained in any market environment.

The sub-fund may use mainly, but not exclusively, directly, or indirectly the following Alternative Management techniques:

- Relative value strategies for fixed income or equities, currencies and commodities
- Event-driven
- Equity long/short strategies
- Trend following (CTA's)
- Risk Premia

For additional information of Alternative Management techniques please referred to the prospectus.

The Sub-Fund may invest up to 100% of its total exposure in derivative instruments according to its investment objective including derivatives in financial instruments with returns linked to: credit risk, inflation, dividends, interest rate, commodity indices or instruments with returns linked to commodities and volatility.

The underlying of the total return swaps will consist of instruments in which the Sub-Fund may invest according to its investment policy.

The expected proportion of the assets of the Sub-Fund that can be subject to total return swaps is 50% in normal market conditions and the maximum proportion of the assets of the Sub-Fund that could be subject to them is 95%. These limits are referred to the notional of the total return swaps.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

**Net asset value calculation frequency:** Daily, any Luxembourg Business day.

This is an accumulation share class in EUR.

### Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 5 years.

**Depository:** Caceis Bank, Luxembourg Branch.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product

will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the Sub-Fund's capacity to pay you.

Besides the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		5 years	
<b>Example Investment:</b>		EUR 10 000	
		<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
<b>Scenarios</b>			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	EUR 8 160	EUR 8 050
	Average return each year	-18.40%	-4.25%
Unfavourable	What you might get back after costs	EUR 9 190	EUR 9 620
	Average return each year	-8.10%	-0.77%
Moderate	What you might get back after costs	EUR 9 870	EUR 10 390

Moderate scenario: this type of scenario occurred for an investment using a suitable benchmark between 2019 and 2024.

Favourable scenario: this type of scenario occurred for an investment using a suitable benchmark between 2020 and 2025.

## What happens if Santander Asset Management Luxembourg is unable to pay out?

The investor may not face a financial loss due to the default of Santander Asset Management Luxembourg S.A. (the PRIIP Manufacturer). Investors may suffer a financial loss in the event of the insolvency of the depositary, or someone acting on its behalf, which will not be covered by any investor compensation or guarantee scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the Sub-Fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000 per year is invested.

	<b>If you exit after 1 year</b>	<b>If you exit after 5 years</b>
Total costs	EUR 173	EUR 927
Annual cost impact (*)	1.7%	1.7% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5% before costs and 0.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of Costs
