

Key Investor Information

This document provides you with key investor information about this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so you can make an informed decision about whether to invest.

SANTANDER TOTAL RETURN
a sub-fund of SANTANDER SICAV

Class
RKP

ISIN
LU1980187832

The management company is
Santander Asset Management
Luxembourg S.A.

Objectives and Investment Policy

Objective: The objective of this Sub-Fund is to maximize total investment return, consisting of a combination of income and capital appreciation over a full market cycle with a maximum expected annualized volatility in a 5 years period of 15%.

Investment policy: The Sub-Fund is a multi-asset, flexible, unconstrained fund that may invest up to 100% of its total exposure directly or indirectly through UCITS including ETFs and other UCIs, in global equities, commodities, sovereign and corporate bonds including liquid money market instruments (listed or unlisted) and/or deposits without predetermination of countries, sectors, and capitalization, currency, issuers and markets (including emerging markets), duration or rating.

The Sub-Fund will not invest directly in ABS, MBS, distressed securities, CoCos, and fixed income and equity instruments from Russia and China but might get indirect exposure.

The Sub-Fund takes a systematic approach combined with traditional and alternative management techniques complemented by the Investment Manager discretionary views.

The Sub-Fund invests in a diversified universe of assets and strategies and uses systematic analysis for asset allocation based on assets recent volatility, correlation and returns metrics, and allocates weights depending on their contribution to risk and the volatility target of the product.

The Sub-Fund systematic approach is complemented with alternative management techniques. These techniques are characterized by the fact that the returns obtained are not linked to the direction of the markets, and returns can be obtained in any market environment.

The sub-fund may use mainly, but not exclusively, directly, or indirectly the following Alternative Management techniques:

- Relative value strategies for fixed income or equities, currencies and commodities
- Event-driven
- Equity long/short strategies

- Trend following (CTA's)

- Risk Premia

For additional information of Alternative Management techniques please referred to the prospectus.

The Sub-Fund may invest up to 100% of its total exposure in derivative instruments according to its investment objective including derivatives in financial instruments with returns linked to: credit risk, inflation, dividends, interest rate, commodity indices or instruments with returns linked to commodities and volatility.

The underlying of the total return swaps will consist of instruments in which the Sub-Fund may invest according to its investment policy.

The expected proportion of the assets of the Sub-Fund that can be subject to total return swaps is 50% in normal market conditions and the maximum proportion of the assets of the Sub-Fund that could be subject to them is 95%. These limits are referred to the notional of the total return swaps.

The Sub-Fund is actively managed and it is not managed in reference to a benchmark.

Net asset value calculation frequency: Daily, any full Business day.

Subscription, conversion and redemption applications lodged with the Registrar and Transfer Agent in Luxembourg on any Dealing Day (whereas a "Dealing Day" is any full Business Day preceding a Valuation Day) before 16:00 Luxembourg time (the "cut off time"), will be processed on that Dealing Day, using the net asset value per Share determined on the next Valuation Day for the relevant Class.

This is an accumulation share class in GBP.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 5 years.

The Board of Directors intends to obtain for this sub-fund the certification from the United Kingdom's HM Revenue & Customs in order to be considered a reporting offshore fund (UK reporting status).

Risk and Reward Profile

The number indicated above is the fund's **Synthetic Risk Reward Indicator**, a way of illustrating the risk and reward profile of a fund by using historic performance data. Please be aware, this value can change over time and it may not be a reliable indication of the fund's future risk profile. In addition, the lowest category does not mean a risk-free investment.

A ranking of **6** means this fund typically has a high level of volatility, meaning that the fund's value could potentially fluctuate dramatically over a short period of time in either direction.

Investors should be aware of the following risks:

Derivatives Risk: The fund is permitted to use derivative instruments. The value of derivatives can be volatile and may result in gains or losses in excess of the amount required initially to establish a position.

Market Risk: Investments in the fund are subject to market fluctuations that could cause the value of a particular investment to change in a way that is detrimental to the fund's value.

Interest Rate Risk: A rise in interest rates can generally be expected to depress the value of the fund's fixed income investments.

Emerging Markets Risk: The fund is permitted to hold some exposure to Emerging Markets, which can at times carry a higher degree of risk compared

to similar securities in more developed markets due to political and economic events.

Credit Risk: It refers to the likelihood of the fund losing money if an issuer is unable to meet its financial obligations, such as the payment of principal and/or interest on an instrument, or goes bankrupt.

Liquidity Risk: There is the possibility that the fund may lose money or be prevented from earning capital gains if it cannot sell a security at the time and price that is most beneficial to the fund and may be unable to raise cash to meet redemption requests.

Operational Risk: The risk of failures or delays in the system, processes and controls of the fund or those of its service providers that could lead to fund losses.

Sustainability risk: The Sub-Fund's investments may be subject to sustainability risks. Sustainability risks are environmental, social or governance events or conditions that, if they occur, could cause an actual or a potential material negative impact on the value of the Sub-Fund's investments.

Currency Risk: Investing in assets denominated in a currency other than that of the investor's own currency exposes the value of the investment to exchange rate fluctuations.

Investment Leverage Risk: Investment leverage occurs when the economic exposure is greater than the amount invested. Leverage can be used to increase returns through additional exposure to assets or to reduce risk in the overall portfolio. A Fund that employs leverage may experience greater gains and/or losses due to the amplification effect from a movement in the price of the reference source.

Charges

The fees are used to cover the operating costs for the Sub-Fund, including marketing and distribution costs. These fees reduce the potential growth of the investment.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	

Charges taken from the fund over a year

Ongoing charges	0.61%
Charges taken from the fund under certain specific conditions	

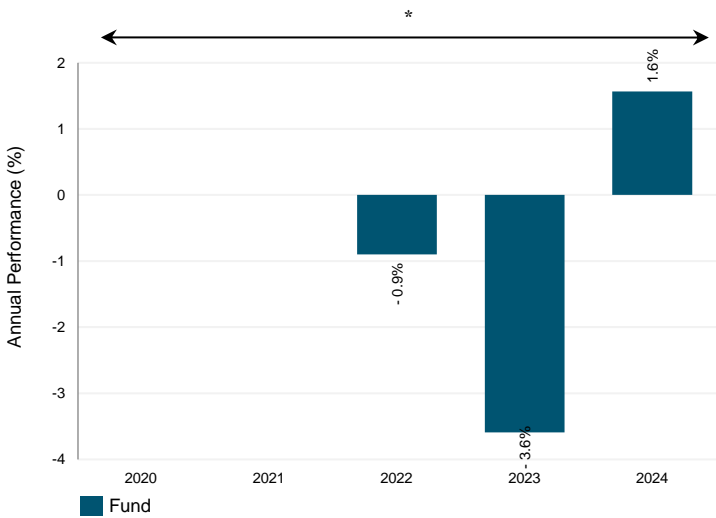

Performance fee	None
-----------------	------

The entry and exit charges shown above are the maximum that may be charged. In some cases, you might pay less. You can obtain the actual charges directly from your financial adviser or distributor. The entry charges are deducted before your capital is invested.

The ongoing charge percentage indicated is based on the fees from the previous financial period, ended on 31 December 2024. This figure can vary from one financial period to another.

You can obtain more information about these charges, in the «fees and expenses» section of the prospectus.

Past performance

Past performance of Sub-Fund is not necessarily indicative of future performance. The calculation of the past performance includes all fees and commissions which accrue on fund level.

This class was created in 2021.

The past performance has been calculated in GBP.
