What is this product?

Type

Santander US Equity ESG (the "Sub-Fund") is sub-fund of SANTANDER SICAV, a UCITS incorporated in Luxembourg.

Term

The Sub-Fund is established for an unlimited period. The Sub-Fund may not be unilaterally terminated by Santander Asset Management Luxembourg. The Sub-Fund can be dissolved early and liquidated in the cases set out in the prospectus and the articles of incorporation of the Fund.

Objective: The investment objective of the Sub-Fund is to invest its assets in a diversified portfolio of securities issued by US companies seeking long term capital appreciation.

Investment policy: The investment objective of the Sub-Fund is to invest its assets in a diversified portfolio of securities issued by US companies seeking long term capital appreciation. The Sub-Fund will be actively managed with the objective of outperforming the S&P 500® Net Total Return Index (the "Benchmark") over long term.

The Sub-Fund will primarily invest in US equities of established large-capitalization companies, following a disciplined and systematic investment process and stock picking.

The Sub-Fund's portfolio is constructed by combining a process of "top-down" sector analysis derived from the macroeconomic environment with a "bottom-up" analysis of the companies. The Sub-Fund invests in a concentrated portfolio where the selection of companies is made on the basis of different factors: competitive advantages, attractive valuation, outstanding growth, restructuring opportunities. The tracking-error is limited to between 2% and 5%.

The Sub-Fund will apply an ESG, seeking to promote environmental, social and governance factors on the cash flows of the companies in which it may invest.

On an ancillary basis and up to 10% of its net assets, the Sub-Fund may invest in debt securities convertible into common shares, preference shares, warrants on securities and other equity linked securities.

The Sub-Fund may invest up to 10% of its net assets in securities issued by non-US companies.

The Sub-Fund will not hold more than 20% of its net assets in cash and deposits for ancillary liquidity purposes in normal market conditions. The Sub-Fund may invest up to 10% of its net assets in exchange traded funds qualifying as UCITS.

The Sub-Fund will continuously invest at least 51% of its net assets directly or indirectly via UCITS and/or other UCIs in equity assets, excluding depository receipts and financial derivative instruments. In the case of indirect investments the Sub-Fund will take into account the effective equity ratio of the underlying fund.

SFDR Classification: The Sub-Fund promotes environmental and/or social characteristics within the meaning of article 8 of the Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial sector ("SFDR").

Net asset value calculation frequency: Daily, any full Business day. Subscription, conversion and redemption applications lodged with the Registrar and Transfer Agent in Luxembourg on any Dealing Day (whereas a "Dealing Day" is any full Business Day preceding a Valuation Day) before 16:00 Luxembourg time (the "cut off time"), will be processed on that Dealing Day, using the net asset value per Share determined on the next Valuation Day for the relevant Class.

This is an accumulation share class in EUR.

The Sub-Fund's reference currency is USD. This share class is denominated in EUR. Currency hedging may be used to reduce risk exposure associated with USD/EUR exchange rate fluctuations.

Intended retail investor:

This Sub-Fund may not be appropriate for investors who plan to withdraw the money within 3 years.

Depository: J.P. Morgan SE, Luxembourg Branch.

Copies of the Prospectus, the Key Information Document, the annual and semi-annual financial reports and the Articles of Incorporation of SANTANDER SICAV can be obtained, free of charge, at the registered office of SANTANDER SICAV (6, Route de Trèves, L-2633 Senningerberg, Luxembourg), of the Management Company or of the Depository Bank. What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Sub-Fund as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the Sub-Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the market risks included in the risk indicator, other risks may affect the share performance:

Operational, Sustainability, Currency, Derivatives, Market, Emerging Markets risks. Please refer to the Prospectus for full details about the risks associated with this Sub-Fund.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

What you will get from this Sub-Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:		3 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 3 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	€960	€1,860
	Average return each year	-90.40%	-42.92%
Unfavourable	What you might get back after costs	€7,880	€8,320
	Average return each year	-21.20%	-5.95%
Moderate	What you might get back after costs	€11,080	€12,860
	Average return each year	10.80%	8.75%
Favourable	What you might get back after costs	€15,260	€18,190
	Average return each year	52.60%	22.07%

The figures shown include all the costs of the Sub-Fund itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2021 and 2023.

Moderate scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2015 and 2018.

Favourable scenario: This type of scenario occurred for an investment using the benchmark as stated in the prospectus between 2018 and 2021.

What happens if Santander Asset Management Luxembourg is unable to pay out?

In the event of the insolvency of our Company, the assets of the Fund deposited with the Depositary will not be affected. However, in the event of the insolvency of the depositary or a person acting on its behalf, the fund could suffer a financial loss that is not covered by an investor compensation or protection scheme. However, this risk is mitigated by the fact that the depositary is required by law and regulation to segregate its own assets from the assets of the fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 per year is invested.

	If you exit after 1 year	If you exit after 3 years
Total costs	€118	€424
Annual cost impact (*)	1.2%	1.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 9.9% before costs and 8.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.
